Subject: Draft GKM Monitoring Plan for Sept 15

Attached please find the latest draft of the GKM monitoring plan. In response to comments received on Friday, several sentences have been added to solicit stakeholder input on inclusion of drinking water well sampling in EPA's plans for follow-up monitoring. Input from R6 and incident command was received and is reflected in the verbiage of this addition. This new text is highlighted in yellow in the attached draft for your consideration. In addition, all other comments received and discussed last week are reflected in the attached draft.

Please let me know if you questions.

Thanks,

Sandie
